

Rock Creek Corridor: Walk & Roll Tour

You get to help plan the future of the Rock Creek Corridor!

The City of Mission is studying potential improvements to the Rock Creek Corridor from Woodson Street to Roeland Drive. This study will provide recommendations that will support transportation, safety, and green infrastructure along the Rock Creek Corridor while identifying ways to connect and support adjacent businesses and land uses to create meaningful community gathering spaces.

The first public event is a mobile workshop with the option to **walk** or **bike** the corridor. Whichever mode you choose, project team members will facilitate your journey with several stops to discuss and reflect on current conditions and future aspirations.

When: 10:00 a.m, Saturday, September 16

Where: Meet at Wendy's parking lot - 5900 Roeland Drive Mission, KS 66205 (intersection of Roeland Drive and Martway Street)

What: A 1.5-mile walking or 3.5-mile biking tour of the Rock Creek Corridor study area

(select your preference for walk or ride when you get tickets.)

The bike tour is **BYOB** (bring your own bike) and **helmets are required.**

Please use an email address you check frequently!

In the event of inclement weather, all registered participants will be notified of any changes or cancellation via email two hours in advance of the start time using the contact information provided. Additional details about how to prepare will be emailed the week of the event.

The Walk & Roll Tour is part of the City of Mission's Rock Creek Corridor Planning Study, supported by a consulting team that includes BikeWalkKC.

Sign up now! Registration closes on September 9.
