AGENDA

1. Discussion of 2024 International Building Codes – Brian Scott/Kortney Capello

   City staff will present an overview of the 2024 International Building Codes, which have been under internal review, as the first public-facing step in transitioning from the City's currently adopted 2018 codes. The presentation will outline the review process to date, summarize key updates in the 2024 code cycle, and discuss potential impacts to local development and construction practices. Staff will also highlight considerations related to Council goals and policy priorities. The purpose of the presentation is to gather initial Council input and feedback to help guide the next steps, which will include broader stakeholder engagement and formal consideration of code revisions later this summer.
