AGENDA

1. Powell Community Center Roof Replacement and Solar Discussion – Penn Almoney/Laura Smith

   The City is preparing for a planned replacement of the roof at the Powell Community Center. As part of that project, staff has also preliminarily evaluated the opportunity to incorporate a solar energy system as part of the project. The work session discussion will provide an overview of the roof replacement project, anticipated costs and timing, and the financial and operational considerations associated with adding solar. Staff is seeking Council feedback on whether to include solar as part of the project before moving forward with final design and procurement.
